Subject: Child Support ammendments

I have been paying child support now for about four years through your current system. I have had the wonderful opportunity to pay support for the same child in two seperate countys { Oakland and Washtenaw}, at the same time!!!. This matter took over a year to resolve while I nearly went bankrupt. The other issue is the amounts being charged. I was assessed a weekly payment of \$383.75. What chart did that come off of? I work for Ford Motor Company and am proud to earn the middle class income { \$52,000 - \$68,000 }. I would also like to add that I have my son with me for a documented 153 of the year, not counting all of the undocumented days. Yet, I have had no consideration of that fact in the support amounts set. I am glad to pay for my son's food and clothing. I just do not want to have to support my ex-wife and her husband. If I wanted that I would not have divorced her and let him move in. I hope further progress in made in fair Child Support Assesments. I would be happy to be and see good fathers be able to enjoy their lives with their children.

Thank you
